

Preventing Pump noise

**Irish Made
No.1 Product
in Ireland**

Worried about running the tap or taking a shower for fear of disturbing the whole house?

Prevent vibration transmission from disturbing you and your family. AM Pump pad is a highly effective and affordable solution for treating the noise caused by domestic water pumps. AM pump pad combines a highly dense board and a flexible foam, providing the perfect solution for treating vibration transmission.

Dimensions:

300mm X 400mm X 40mm

300mm X 200mm X 40mm

Acoustic parameters:

Improvement of impact sound - $\Delta L_w = 18$ dB

Reduce pump noise by over 50%

Examples of use:

Used as padding underneath water pump to damp the vibrations generated by pump

Easy Assembly:

- Simple processing - cutting, drilling
- Small amount of cutting & drilling
